The Spark

I know many people who are fascinated by numbers and often look deeply into them for a significant meaning. As we begin the new year, what could it mean that we are entering the 21st year of the 21st Century? Well, it only happens once every 101 years. And this is also coming on the heels of the "Great Conjunction" of Jupiter and Saturn (commonly referred to as the Christmas Star). This spectacular Galactic event last happened about 800 years ago. So, does this new year have any special spiritual significance other than the historical trivia mentioned above? I'm not posing any, but maybe I got your attention.

Here's what I do propose. I say let's all be sparks. If we all join together we can make history by turning a very blurry 2020 into a very bright clear year. To accomplish this we're going to have to turn up our love lights, light our candles and shine, shine, shine. Let's make 2021 the year of the great human conjunction. As we begin the year we may be distanced from each other physically, but we can unite in setting the intention to grow in all aspects of love.

Perhaps by the end of the year, Divine health will prevail over the land and we will all play a part in the forthcoming healing. Then we can once again open our hearts and our homes to one another and that which began with a spark will become billions of torches of unity burning in every Hearth & Home in this community we call Earth.

Happy New Year!!

Jeff

Burning Bowl Ceremony Thursday Dec 31 7 pm

Shift your consciousness. Clear out unwanted memories and conditions from your life. The Burning Bowl ritual offers a sacred and powerful way to release negativity. Make space for new beginnings. Be still, name what you want to release and let it go. When we let go and let God, you experience freedom, Letting go opens you to the power of inspiration, insight, wisdom and love.

White Stone Ceremony Sunday Jan 3rd 11 am

Revelations 2:17: "They that hath an ear, let them hear what the Spirit said unto the churches; to they that overcometh will I give to eat the hidden manna, and will give them a white stone and in the stone a new name written, which no person knowth saving they that receiveth it."

Symbolically, the stone represents freedom. As was custom in ancient days during slavery in the Holy Land, a prisoner was given a white stone when he was freed from servitude as a token of his freedom. On his stone was a new name that he would take in this new life.

During the White Stone Mediation, each participate holds a white stone, from Jerusalem in their hand, allowing the Spirit within to reveal a New Name that is to be worked with during the year.

The 12 Powers

Each of us has **12 creative powers** that are fundamental to us. Understanding the true potential of these creative energies and how to engage their power leads to living a richly blessed life. Our minds can be a link to God through these 12 capacities.

The January Power is "Faith". Rev. Harold's talk on the 10th will be talking about the power of Faith, then on Wednesday the 13th, he will hold a class embellishing Faith, with a discussion about this power.
